

Introducing: Virtual Primary Care

All the things you would expect from an in-person care visit, just over the phone or through video chat at your convenience.

Get started in minutes

A better primary care experience

With streamlined access to your dedicated care team, teletherapy, virtual urgent care, appointments on your schedule, virtual wellness exams, and a holistic care approach, it's healthcare the way you want it.

Ways to access Virtual Primary Care

You can access VPC by downloading the TouchCare mobile app for your iOS or android device. Simply login then click on the **Add-ons** tab from the bottom menu.

Visit www.touchcare.com and click on **member login**. If you are creating a new account, click **new member**. Otherwise, sign in and click the **Add-ons** tab from the left menu.

You can also contact your virtual providers directly over the phone. To be connected with the VPC team and to schedule your first consult, dial: **855-636-3669**
