

How We Partner With PEOs

Healthcare is confusing and it can be difficult for employees to understand who they can reach out to for answers. TouchCare concierge services cut through the noise and simplify benefits for members.

Grow Your Business

Differentiate your sales team from other PEOs at the point of sale to win new business while providing existing clients with a next level benefit experience designed to retain your book of business.

Personalization

Healthcare is not one-size-fits-all. To deliver a better member experience, it should be personalized. We provide high-touch navigation & coordination for all the benefits your PEO offers.

Reduce Your Plan's MLR

By providing in-depth cost comparisons and bill reviews, we generate savings for our members and their plans. With our expertise, members gain the knowledge and tools to make informed decisions.

Increase Efficiency

Increase efficiency within your PEO by leveraging TouchCare experts. We help you expand your business by taking the burden of complex healthcare questions off your internal team.

Enhanced Member Experience

With scalable support and personalized assistance, TouchCare empowers PEOs to efficiently manage healthcare needs, freeing up HR resources to fuel business growth and expansion.

Open Enrollment made easy

From the onset of their PEO healthcare journey, we guide members and their dependents in making intelligent decisions regarding their plan selection. Throughout the year, our dedicated experts remain accessible, offering assistance in optimizing benefits and addressing complex inquiries.

Total support for HR teams

We keep employees engaged with their benefits with informative webinars, newsletters, and custom communications. We'll work with HR teams to collaborate on communication strategies that align with PEO and organization goals.
